Academic CoachTM
imagine great students

An assessment tool to
kindle students' vision,
strengthen their tenacity,
encourage their creativity,
and **motivate** them
to be courageous.

A Selection Tool for Assisting with Courses and Majors

The **Academic Coach™** assessment provides students with a review of their **thinking style, occupational interests** and **behavioral traits**. This information will assist them with the selection of satisfying courses to support a degree program and successful career selection.

The numerical ability, numerical reasoning, verbal skill, verbal reasoning and overall **learning index** results are shared with each student.

The **occupational interests** portion measures traits, such as creativity, people service and technical skills that relate to various occupations.

The results of measuring behavioral traits reflect those traits that will help students select careers that best fit their **strengths and interests**, such as attitude, objective judgement and sociability.

These tools will be reviewed throughout the students' college experience.

This assessment tool will identify **career possibilities** and provide insights into preparing students for the highly-skilled, competitive workforce.

A link with O*NET (Occupational Information Network from the US Department of Labor) is provided to students for reviewing **occupational matches**.

Additionally, surveys and questionnaires are available to assist students in making decisions about their college curriculum.

Goals of the Academic Coach™

The Profiles **Academic Coach™**...

- **helps** universities in retaining students the first year, and graduating students who will support their university.
- **provides** advisors a tool to help students select courses, programs or majors that match their unique abilities and interests.
- **creates** a tool customized for the enrollment needs of each college or university with strategic implementation and integration options.
- **assists** in planning for the future by tracking students through graduation.
- **introduces** a mechanism for students to learn about their abilities and validate their college course selection and career choices.
- **constructs** a formalized process of implementation for incoming freshmen or transferring students to support their selected degree.

“Leadership and learning are indispensable to each other.”
– John F. Kennedy
